HOUSTON BUSINESS BANK

Business Banking With
A Customized Approach

Why Houston Business Bank?

In today's economy both large and small banks have failed, and the last thing business owners need is to worry about the soundness and security of their bank. With our ownership structure, we bring over 35 years experience and knowledge to your business and we provide innovative technology and customized solutions. Houston Business Bank is the choice for business banking. With our tailor-made approach, solid capital base, commitment to your business, and time-tested experience, you can feel confident in allowing Houston Business Bank to handle all of your banking needs.

A Focused Approach

We are a niche bank designed to meet the comprehensive needs of Middle Market businesses. We recognize the desirability of customization and true relationship banking.

Our Values

Our core values are centered on trust, care, and the commitment to be the best in business banking.

The Houston Business Bank Difference

Middle Market business owners know the difference between large "money-center" banks and small "community" banks. Large banks offer high-level technology while smaller banks focus on delivering personal service. Recently, large money-centered banks have shifted their focus to larger transactions directing Middle Market business owners to volume-driven, one-size-fits-all transactions. This mentality leaves good, loyal customers, and hardworking business owners without the benefit of customized banking solutions.

Houston Business Bank unites the best elements of large "corporate" banks and small "community" banks. We serve companies that are no longer desirable to larger banks by delivering customization and accessibility to cutting-edge technology while providing outstanding customer service. We take time to learn about your business and tailor-made solutions to serve all your banking needs.

Our Clients

Houston Business Bank generally defines Middle Market as businesses operating in various industries having revenues up to \$50 million.

Leadership

Houston Business Bank's Board of Directors is comprised of business owners from Houston and the surrounding areas. Our majority shareholder is Texas Independent Bancshares, Inc., the holding company of Texas First Bank. Texas First Bank is the largest independent bank in Galveston County and one of the premier community banks in the nation. Our ownership structure allows us to leverage the experience and vast resources of Texas First Bank. Our knowledge of the latest commercial banking products allows us to deliver you the best in business banking.
